The Design and Management of Effective Distance Learning Programs

The Design and Management of Effective Distance Learning Programs

As computers, telecommunications technology and other electronic media have reduced the constraints imposed by geographic location, increasing numbers of organizations are using information technology to geographically disperse education. As the number of distance learning programmes continues to increase therefore, a variety of challenges and issues must be faced. These issues include costs incurred for remote space and equipment used, the loss of traditional evaluation methods, and the potential losses of academic integrity. The goal of this book is to increase the understanding of such major issues, challenges and solutions related to distance education and it is geared toward administrators and academics trying to develop or improve distance education programmes.
