Auditing and Security: AS/400, NT, UNIX, Networks, and Disaster Recovery Plans Yusufali F. Musaji
A complete and definitive guide to auditing the security of IT systems for managers, CIOs, controllers, and auditors
This up-to-date resource provides all the tools you need to perform practical security audits on the entire spectrum of a company's IT platforms-from the mainframe to the individual PC-as well as the networks that connect them to each other and to the global marketplace. Auditing and Security: AS/400, NT, Unix, Networks, and Disaster Recovery Plans is the first book on IT security written specifically for the auditor, detailing what controls are necessary to ensure a secure system regardless of the specific hardware, software, or architecture a company runs. The author uses helpful checklists and diagrams and a practical, rather than theoretical, method to understanding and auditing a company's IT security systems and their requirements. This comprehensive volume covers the full range of issues relating to security audits, including:
* Hardware and software
* Operating systems
* Network connections
* The cooperation of logical and physical security systems
* Disaster recovery planning

So , do you even now thinking Auditing and Security: AS/400, NT, UNIX, Networks, and Disaster Recovery Plans is not loveable to be your top record reading book?

Denise Zimmerman:

Playing with family in a park, coming to see the sea world or hanging out with good friends is thing that usually you may have done when you have spare time, then why you don't try factor that really opposite from that. 1 activity that make you not experiencing tired but still relaxing, trilling like on roller coaster you already been ride on and with addition details. Even you love Auditing and Security: AS/400, NT, UNIX, Networks, and Disaster Recovery Plans, you are able to enjoy both. It is fine combination right, you still desire to miss it? What kind of hang type is it? Oh can occur its mind hangout fellas. What? Still don't buy it, oh come on its identified as reading friends.

Theresa Nash:

As a student exactly feel bored for you to reading. If their teacher requested them to go to the library or make summary for some book, they are complained. Just minor students that has reading's soul or real their interest. They just do what the instructor want, like asked to the library. They go to presently there but nothing reading significantly. Any students feel that looking at is not important, boring and can't see colorful images on there. Yeah, it is to be complicated. Book is very important for you. As we know that on this era, many ways to get whatever you want. Likewise word says, many ways to reach Chinese's country. So , this
