"One day the Torah / Bible / Koran might be unified by science and all fields of science unified by the "new" found God of all human kind." Such ideas are part of our "obsolete future". Could it be that we experience our own future in the present? The duality of our human nature will dictate the type of future we will experience. Our mind and body are connected by our soul but only the mind can "feed" the body or the soul. Science will discover many biblical truths as scientific facts and that will lead to change the biblical fiction to plausible reality. The idea of immortality and resurrection will be proven as fact. Only then humanity will have the choice to follow the "obsolete future" or finally accept the everlasting truth.
