SmartClip Self-Ligating Appliance System: Concept and Biomechanics, 1e Hugo Trevisi DDS

This is a unique book on the use of the SmartClip self-ligating appliance system, written by an internationally-known authority on the subject. It guides the reader towards the achievement of the best possible results for the orthodontic patient through the use of this new system.

SmartClip Self-Ligating Appliance System: Concept and Biomechanics will be ideal for orthodontists using the preadjusted conventional appliances, for those already using the SmartClip system and for those new to it.

- A practical and clearly illustrated introduction to a self-ligating appliance system which involves low force levels, sliding biomechanics and decreased friction
- Clear description of a new bracket positioning system, based on the individual characteristics of each tooth, providing perfect functional occlusion at the end of treatment
- Stress is laid on the importance of considering occlusion in treating orthodontic cases
- Numerous case histories give detailed examples of the use of the system
- Presentation of the advantages of the system - shorter patient chair time and overall treatment time, longer intervals between visits, less patient discomfort, better oral hygiene
