Basic Modern Algebra with Applications

Mahima Ranjan Adhikari, Avishek Adhikari

Basic Modern Algebra with Applications Mahima Ranjan Adhikari, Avishek Adhikari

The book is primarily intended as a textbook on modern algebra for undergraduate mathematics students. It is also useful for those who are interested in supplementary reading at a higher level. The text is designed in such a way that it encourages independent thinking and motivates students towards further study. The book covers all major topics in group, ring, vector space and module theory that are usually contained in a standard modern algebra text.

In addition, it studies semigroup, group action, Hopf's group, topological groups and Lie groups with their actions, applications of ring theory to algebraic geometry, and defines Zariski topology, as well as applications of module theory to structure theory of rings and homological algebra. Algebraic aspects of classical number theory and algebraic number theory are also discussed with an eye to developing modern cryptography. Topics on applications to algebraic topology, category theory, algebraic geometry, algebraic number theory, cryptography and theoretical computer science interlink the subject with different areas. Each chapter discusses individual topics, starting from the basics, with the help of illustrative examples. This comprehensive text with a broad variety of concepts, applications, examples, exercises and historical notes represents a valuable and unique resource.

From reader reviews:

Jewel Tarr:

Book is definitely written, printed, or highlighted for everything. You can understand everything you want by a publication. Book has a different type. To be sure that book is important point to bring us around the world. Next to that you can your reading proficiency was fluently. A reserve Basic Modern Algebra with Applications will make you to possibly be smarter. You can feel more confidence if you can know about every little thing. But some of you think which open or reading any book make you bored. It is far from make you fun. Why they could be thought like that? Have you seeking best book or suitable book with you?

Patricia Rivera:

Reading a book can be one of a lot of task that everyone in the world loves. Do you like reading book so. There are a lot of reasons why people fantastic. First reading a publication will give you a lot of new data. When you read a reserve you will get new information because book is one of a number of ways to share the information or even their idea. Second, looking at a book will make an individual more imaginative. When you looking at a book especially hype book the author will bring that you imagine the story how the characters do it anything. Third, you may share your knowledge to other folks. When you read this Basic Modern Algebra with Applications, it is possible to tells your family, friends and soon about yours guide. Your knowledge can inspire different ones, make them reading a book.

Nancy Barry:

You could spend your free time to read this book this e-book. This Basic Modern Algebra with Applications is simple bringing you can read it in the park your car, in the beach, train and soon. If you did not have got much space to bring typically the printed book, you can buy typically the e-book. It is make you much easier to read it. You can save the actual book in your smart phone. Consequently there are a lot of benefits that you will get when you buy this book.

Naomi Dillon:

You may get this Basic Modern Algebra with Applications by check out the bookstore or Mall. Merely viewing or reviewing it could to be your solve problem if you get difficulties to your knowledge. Kinds of this publication are various. Not only through written or printed but in addition can you enjoy this book through e-book. In the modern era like now, you just looking by your local mobile phone and searching what their problem. Right now, choose your current ways to get more information about your book. It is most important to arrange yourself to make your knowledge are still update. Let's try to choose appropriate ways for you.
