iPhone and iPad in Action: Introduction to SDK Development Brandon Trebitowski, Christopher Allen, Shannon Appelcline

iPhone and iPad In Action, compiled by mobile software developer and blogger Brandon Trebitowski, simplifies existing iPhone topics while also updating them to account for the 3.4 SDK framework including iPad coverage. Beyond covering the basics of iPhone development, this edition also explores exciting topics such as the accelerometer, peer-to-peer gaming, mapkit, push notifications, and in-app purchasing. The reader is provided with step-by-step instructions on how to integrate the APIs into new or existing applications.

After completing this book, the reader will have all of the knowledge necessary to create fully functional iPhone applications ready for the App Store. There are many sample applications to work from including a chat client, video game, interactive map, and many others.

Purchase of the print book comes with an offer of a free PDF, ePub, and Kindle eBook from Manning. Also available is all code from the book.
