Statistics: A Guide to the Unknown Roxy Peck, George Casella, George W. Cobb, Roger Hoerl, Deborah Nolan

This collection of intriguing essays describes important applications of statistics and probability in many fields. Instead of teaching methods, the essays illustrate past accomplishments and current uses of statistics and probability. Surveys, questionnaires, experiments, and observational studies are also presented to help the student better understand the importance of the influence of statistics on each topic covered within the separate essays. The overarching goal of STATISTICS: A GUIDE TO THE UNKNOWN is to demonstrate the wide use and importance of statistics through an integrated set of case studies that are readable, interesting, and meaningful to the general public.
