A Great Basin Mosaic: The Cultures of Rural Nevada James W. Hulse

The Nevada of lesser-known cities, towns, and outposts deserve their separate chronicles, and here Hulse fills a wide gap. He contributes in a text rich with memories tramping through rural Nevada as a child, then as a journalist seeking news and gossip, then later as an academic historian and a parent trying to share the wonders of the high desert with his family. Nobody is more qualified to write about the cultural nuances of rural Nevada than Hulse, who retired after 35 years as a professor of history at University of Nevada, Reno.

Robert Laxalt wrote an article in *National Geographic* in 1974 entitled “The Other Nevada” in which he referred to “the Nevada that has been eclipsed by the tinsel trimmings of Las Vegas, the round-the-clock casinos, the ski slopes of the Sierra. It is a Nevada that few tourists see.” With this book Hulse reflects on Laxalt’s insights and shows changes—often slow-moving and incremental—that have occurred since then. Much of the terrain of rural Nevada has not changed at all, while others have adapted to technological revolutions of recent times. Hulse states that there is no single “other” Nevada, but several subcultures with distinct features. He offers a tour of sorts to what John Muir called the “bewildering abundance” of the Nevada landscape.
