A Labour of Moles (Cahiers) Ivan Vladislavic

"I found myself in the thick of things. I shut my eyes experimentally, opened them again. If I was dreaming, the scene should change – but no, everything was exactly as it had been before."

So begins *A Labour of Moles*, by one of South Africa's most important writers, Ivan Vladislavic: a story which takes the reader into a realm utterly alien and at the same time as familiar as the letters forming the words on the page and the very building-blocks of fiction.
