Engineer Computation Notebook Speedy Publishing LLC

Engineering notebooks are used in industry to record what work was done in case the engineer leaves the project and his/her replacement needs to quickly get up to speed as well as when work was done for patent and copyright purposes. If properly done, an Engineering Notebook permanently records what was done on a project, and particularly what inventions were made and when. Properly maintained Engineering Notebooks are frequently used to document patent claims, since patents are granted to the first person to invent something, not the first person to file for the patent. - Grab a copy today!
