## **MMIXware: A RISC Computer for the Third Millennium (Lecture Notes in Computer Science)**

Donald E. Knuth

MMIX is a RISC computer designed by Don Knuth to illustrate machine-level aspects of programming. In the author's book series "The Art of Computer Programming", MMIX replaces the 1960s-style machine MIX. A particular goal in the design of MMIX was to keep its machine language simple, elegant, and easy to learn. At the same time, all of the complexities needed to achieve high performance in practice are taken into account.

This book constitutes a collection of programs written in CWEB that make MMIX a virtual reality. Among other utilities, an assembler converting MMIX symbolic files to MMIX objects and two simulators executing the programs in given object files are provided. The latest version of all programs can be downloaded from MMIX's home page. The book provides a complete documentation of the MMIX computer and its assembly language. It also presents mini-indexes, which make the programs much easier to understand.

A corrected reprint of the book has been published in August 2014, replacing the version of 1999.

### **From reader reviews:**

#### **Michael Burr:**

Nowadays reading books be a little more than want or need but also get a life style. This reading routine give you lot of advantages. Associate programs you got of course the knowledge the actual information inside the book in which improve your knowledge and information. The knowledge you get based on what kind of guide you read, if you want send more knowledge just go with education and learning books but if you want really feel happy read one with theme for entertaining like comic or novel. Typically the MMIXware: A RISC Computer for the Third Millennium (Lecture Notes in Computer Science) is kind of guide which is giving the reader unpredictable experience.

#### **Nicholas Tapia:**

Hey guys, do you really wants to finds a new book to see? May be the book with the name MMIXware: A RISC Computer for the Third Millennium (Lecture Notes in Computer Science) suitable to you? Typically the book was written by well-known writer in this era. Typically the book untitled MMIXware: A RISC Computer for the Third Millennium (Lecture Notes in Computer Science)is one of several books that will everyone read now. That book was inspired a lot of people in the world. When you read this reserve you will enter the new way of measuring that you ever know just before. The author explained their thought in the simple way, consequently all of people can easily to understand the core of this e-book. This book will give you a wide range of information about this world now. To help you see the represented of the world in this book.

#### **Karen Garcia:**

Often the book MMIXware: A RISC Computer for the Third Millennium (Lecture Notes in Computer Science) will bring that you the new experience of reading a book. The author style to spell out the idea is very unique. Should you try to find new book you just read, this book very suitable to you. The book MMIXware: A RISC Computer for the Third Millennium (Lecture Notes in Computer Science) is much recommended to you to study. You can also get the e-book from official web site, so you can easier to read the book.

#### **Anthony Koch:**

MMIXware: A RISC Computer for the Third Millennium (Lecture Notes in Computer Science) can be one of your starter books that are good idea. All of us recommend that straight away because this e-book has good vocabulary that may increase your knowledge in vocab, easy to understand, bit entertaining but nonetheless delivering the information. The copy writer giving his/her effort to place every word into enjoyment arrangement in writing MMIXware: A RISC Computer for the Third Millennium (Lecture Notes in Computer Science) nevertheless doesn't forget the main position, giving the reader the hottest in addition to based confirm resource info that maybe you can be considered one of it. This great information may

drawn you into completely new stage of crucial considering.
