A Practical Guide to French Harki Literature

A Practical Guide to French Harki Literature

This interdisciplinary collection of essays unites researchers from many divergent fields in a common effort to explore the complexity, diversity, and paradoxes of French Harki literature. Given the growing body of literature written by, for, and about the Harkis, this project begins to fill a significant research gap. Although French Harki literature continues to evolve and diversify with each passing day, this book represents the first systematic attempt to delineate the significance of this emerging field within the larger context of Francophone literature, migration studies, and diaspora studies. Furthermore, the invaluable contributions of noted historians which open the volume offer an essential theoretical framework which places Harki literature in its appropriate historical context on both sides of the Mediterranean. As the title of this collection unequivocally implies, this volume was intentionally designed to foster meaningful collaboration with scholars from disciplines such as French/Francophone literature, history, anthropology, and sociology in a common effort to create intellectually rigorous essays which are also accessible to a broad audience. *A Practical Guide to French Harki Literature* is a much-needed point of departure that strives to encourage other researchers to contribute to the conversation regarding the past and present repercussions of the construction of the social group known as the Harkis.
