Can you imagine the helplessness and fear that a five-year-old would feel when he's first visited by extraterrestrials? How about the look on his parents' faces when he confesses his alien encounter?

*Chosen: Chronicles of an Alien Abductee* is Byron W. Lacy's firsthand account of what modern science insists is only folklore.

The first encounters come when he is young—with "little men" entering the room as he hugs his teddy bear. They masquerade as cartoon characters to ease his concern, a dancing Captain Hook—minus the hook—joining his comrades. Future visits lead to psychic connections with his visitors.

Admitting such encounters takes courage, especially when similar comments by a family member placed her in a mental hospital. But Lacy lays it all out on the table as he details what it's like to be an alien abductee.

*Chosen: Chronicle of an Alien Abductee* isn't just for the disbelievers. It's a free discussion of Lacy's experience—one meant to encourage other abductees through their own moments of skepticism both from others and within.

Discover the truth, and let it set you free.
