Water Law and Cooperation in the Euphrates-Tigris Region: A Comparative and Interdisciplinary Approach Aysegul Kibaroglu

Water Law and Cooperation in the Euphrates-Tigris Region: A Comparative and Interdisciplinary Approach builds on the increased attention for international water governance questions in the UN International Year of Water Cooperation (2013) to evaluate various management issues related to the Euphrates and Tigris rivers, with particular attention to the legal governing framework. Alongside contributions by legal scholars from the respective riparian countries on the national water law, the book offers a unique interdisciplinary perspective on political, hydrological and environmental aspects of water management in the region. Additionally, the overall legal implications of water sharing and water resource management are addressed analyzed, in a critical overview. Finally, *Water Law in the Euphrates-Tigris Region: A Comparative and Interdisciplinary Approach* serves as a comprehensive analysis of modern water law in its inclusion of comparative studies of legal and institutional aspects of water management systems in other international river basins. Legal scholars, political scientists, specialists in conflict resolution, economists and policy-makers will find an essential new work in *Water Law in the Euphrates-Tigris Region: A Comparative and Interdisciplinary Approach*.
