Behind the Mask of Hitler Aytun Altindal

Facts, testimonies, police records and previously unpublished state documents are brought together in this enlightening new study into the truth about Hitler's early and private life - exposing a lineage that he was determined to keep secret. In this book, "Behind the Mask of Hitler", the author strives to find a path through the conspiracies and speculation, underpinning the few existing accounts of Hitler's life before his rise to power. It provides a detailed insight into his fascination for the occult, his family life, the milieu that he grew up in, the people who influenced him and those who undoubtedly helped forge his ideologies and his cultural pessimism that resulted in occult-nationalism.
