## **Wetlands: Biomes and Ecosystems (Science Readers)** Yvonne Franklin

Water, water everywhere! Although wetlands don't necessarily need to be covered in water all year long, most areas are pretty wet. Whether they are freshwater or tidal, they play a key role in the health of the Earth. They provide homes for many different kinds of plants and animals that are well adapted for the soggy conditions. Readers learn about the complex interactions between between plants, animals, and the wetlands.
