Mythology of the Prenatal Life Francis J. Mott, R. D. Laing

MYTHOLOGY OF THE PRENATAL LIFE by Francis J. Mott with annotations by R.D. Laing This book is a sequel and companion volume to "The Nature of the Self", which explores the intricacies of prenatal experience, demonstrating how these processes are a reflection of an essential life-pattern revealed in many other dimensions of life, macrocosmic and microscopic. In "Mythology of the Prenatal Life", these insights are explored in further detail and with true genius, as Francis J. Mott shows how the prenatal realm is symbolized in mythology, Biblical stories, and folk tales from many cultures. Lovers of symbolism will relish this material, which offers a unique perspective on familiar themes. This book is an edited version of material previously available only as a privately published monograph. It includes the essay "Jacob's Ladder", a summary of the author's main ideas. The annotations made by R. D. Laing, with whom he corresponded, have been reproduced within the text, published here for the first time. Although Freud initially proposed that mental life began only after birth, he was later to revise this view. Since then, largely in counterpoint to 'mainstream psychology', many brilliant people have developed their own unique understanding of the pre- and perinatal realms: Otto Rank, Nandor Fodor, Stanislav Grof, Paul Verny, Arthur Janov, William Emerson, Bill Swartley, Frank Lake, D.W. Winnicott, R.D. Laing and many others. "The work of Francis Mott stands out as one of the most distinctive contributions of the twentieth century to the study of the human mind". R.D. Laing

From reader reviews:

Gerald Hackler:

What do you concentrate on book? It is just for students since they're still students or the idea for all people in the world, exactly what the best subject for that? Simply you can be answered for that problem above. Every person has diverse personality and hobby for every other. Don't to be forced someone or something that they don't desire do that. You must know how great in addition to important the book Mythology of the Prenatal Life. All type of book can you see on many resources. You can look for the internet resources or other social media.

Paul Norris:

Reading a guide tends to be new life style within this era globalization. With examining you can get a lot of information which will give you benefit in your life. With book everyone in this world may share their idea. Textbooks can also inspire a lot of people. A lot of author can inspire all their reader with their story or even their experience. Not only the story that share in the guides. But also they write about advantage about something that you need case in point. How to get the good score toefl, or how to teach your kids, there are many kinds of book which exist now. The authors these days always try to improve their expertise in writing, they also doing some analysis before they write for their book. One of them is this Mythology of the Prenatal Life.

Donna Young:

This Mythology of the Prenatal Life is great publication for you because the content that is full of information for you who always deal with world and still have to make decision every minute. That book reveal it info accurately using great arrange word or we can state no rambling sentences inside it. So if you are read it hurriedly you can have whole info in it. Doesn't mean it only will give you straight forward sentences but tough core information with beautiful delivering sentences. Having Mythology of the Prenatal Life in your hand like finding the world in your arm, details in it is not ridiculous a single. We can say that no reserve that offer you world inside ten or fifteen second right but this e-book already do that. So , this is certainly good reading book. Hey there Mr. and Mrs. busy do you still doubt that will?

Lowell Bohler:

That e-book can make you to feel relax. This book Mythology of the Prenatal Life was colourful and of course has pictures on the website. As we know that book Mythology of the Prenatal Life has many kinds or variety. Start from kids until teens. For example Naruto or Investigation company Conan you can read and believe that you are the character on there. So , not at all of book are usually make you bored, any it makes you feel happy, fun and rest. Try to choose the best book to suit your needs and try to like reading this.
