Everyone loves a treasure hunt, but did you know only a small percentage of people in the world have ever found real buried or sunken treasure? Now, you can learn how! The author shares firsthand experiences of the trials and jubilations of recovering an ancient shipwreck that sank in 1660 just off the coast of Jupiter, Florida. We all have a sense of curiosity and a call to explore. Many readers know of the great undersea explorers of all time, Jacques Cousteau and Mel Fisher, with their quests for sunken treasure worth tens of millions of dollars. Now more than ever, explorers need to know and understand that they can indeed find and recover their own treasures, many of which are still out there waiting to be found. Chock full of large photographs; includes an educational glossary "This is a good layman's account of the equipment and procedures for underwater shipwreck salvage, applicable both to the underwater archaeologist and the treasure hunter, although the latter are a dying breed." . . . Dr. Ray McAllister, Professor Emeritus, Ocean Engineering
