Radar Systems Performance Modeling (Artech House Radar Library)

G. Richard Curry, Curry

Radar Systems Performance Modeling (Artech House Radar Library) G. Richard Curry, Curry
Radars play a vital and ever-expanding role as integral parts of complex air traffic control, ballistic missile
defence, air defence, and targeting systems for land attack. This work helps the reader to evaluate the
performance of radars in system tasks, and quantify the impact of radar operation on system performance.
The book provides systems-level radar modelling tools for both the analyst and programmer, and furnishes
insight on how to use the models in system analysis. The book includes a diskette featuring Visual Basic
modules and equations that can be used for calculating many of the parameters and performance measures
discussed in the book.
