Kona's Science Project, Cristy Landry

Ever since Kona was a little boy, he has been sharing his local seashores with sea turtles, one of them even being named by the locals; her name is Aliikia. Kona saw Aliikia daily when he would surf with his best friend, Mika. While surfing on a warm, tropical day, he saw Aliikia and realized exactly what he wanted to do for his 5th grade science project. From that moment, it was all he could think about. He was determined to get the data and proof needed to complete his project. Turn the pages and see if Kona captured the amazing beginning life cycle of sea turtle.
