Perhaps the most pioneering work in time travel, this edition has been updated with details of the notorious Cape Scott incident. The Dimensional Time Travel Toolkit portrays its subject as a mystery and also a possibility. Time-travel techniques are introduced, including methods of tricking the clock, metaphysical methods, and how to build a time machine, as well as perspectives and problems related to time travel study. One of the major goals of writing the book is to provide a record of real-life time-travel experiences.
