Xzendor7 Fractal Art Composition Volume II: Fractal Art That Goes Beyond Fractal Manipulation (Volume 2) Mr Rolando R Burbon

This second volume of the Xzendor7 Fractal Art Composition series features a unique set of images that take a different approach than the approach that was taken to create the images in the first book. The resulting imagery is a fascinating mix of fantasy and science fiction art, that's been created using fractals instead of being painted digitally. The book includes 25 main images of the most popular Xzendor7 Fractal Art Compositions Of 2013 with title and the number of fractals required to make the image. If you like fringe artwork this book will fit nicely in your artbook library and make you wonder about the visual and thought process required to take abstract forms to create non abstract imagery.
