Handbook of Alligators and Crocodiles

Steve Grenard

Handbook of Alligators and Crocodiles Steve Grenard

This handbook provides a resource on the basic aspects of crocodylian biology, resource management, behaviour, anatomy, physiology and ecology. It is aimed at a broad audience of individuals concerned with crocodylians, such as wildlife officers in the field, wildlife researchers, environmental specialists, alligator/crocodile farming and ranching personnel, hunters and herpetologists, including students and generalists who need a thorough yet non-technical background. Among the areas covered are crocodylian structure, prey attack, capture and feeding behaviours, and various aquatic profiles, as well as terrestrial gaits and range maps based on the latest available data. Special emphasis is placed on the American alligator and crocodile. The text is complemented by nearly 100 line drawings and maps, specially commissioned for this book, and approximately 75 full-colour and black-and-white photographs are also included.

From reader reviews:

Todd Grossi:

Book is actually written, printed, or descriptive for everything. You can learn everything you want by a publication. Book has a different type. To be sure that book is important factor to bring us around the world. Close to that you can your reading ability was fluently. A reserve Handbook of Alligators and Crocodiles will make you to be smarter. You can feel considerably more confidence if you can know about every little thing. But some of you think in which open or reading the book make you bored. It is not necessarily make you fun. Why they may be thought like that? Have you looking for best book or appropriate book with you?

Sylvia Dasilva:

Reading a publication tends to be new life style with this era globalization. With reading you can get a lot of information that may give you benefit in your life. Together with book everyone in this world can easily share their idea. Textbooks can also inspire a lot of people. A great deal of author can inspire their reader with their story or perhaps their experience. Not only the storyline that share in the textbooks. But also they write about the information about something that you need example. How to get the good score toefl, or how to teach your children, there are many kinds of book that you can get now. The authors nowadays always try to improve their proficiency in writing, they also doing some study before they write on their book. One of them is this Handbook of Alligators and Crocodiles.

Gayle Anderson:

Reading a book to become new life style in this yr; every people loves to go through a book. When you learn a book you can get a large amount of benefit. When you read textbooks, you can improve your knowledge, mainly because book has a lot of information in it. The information that you will get depend on what kinds of book that you have read. If you would like get information about your examine, you can read education books, but if you act like you want to entertain yourself you can read a fiction books, such us novel, comics, and also soon. The Handbook of Alligators and Crocodiles will give you new experience in examining a book.

John Damm:

Is it you who having spare time after that spend it whole day through watching television programs or just lying on the bed? Do you need something totally new? This Handbook of Alligators and Crocodiles can be the response, oh how comes? A fresh book you know. You are thus out of date, spending your free time by reading in this brand new era is common not a nerd activity. So what these publications have than the others?
