Non-Stoichiometric Compounds: Surfaces, Grain Boundaries and Structural Defects (Nato Science Series C:)

The material in this book is based on invited and contributed papers presented at the NATO Advanced Research Workshop on Non-stoichiometric Compounds held in Ringberg Castle, Rottach-Egern (Bavarian Alps), Germany, July 3-9, 1988. The workshop followed previous meetings held in Mogilany, Poland (1980), Alenya, France (1982), Penn State, USA (1984) and Keele University, UK (1986). The aim of these workshops is to present and discuss up-to-date knowledge in the study of non-stoichiometry and its effect on materials properties as well as to indicate the most urgent research pathways required in this field. Since the subject of non-stoichiometry is interdisciplinary, the workshops bring together solid state physicists and chemists, surface scientists, materials scientists, ceramists and metallurgists. The present workshop, which gathered 42 scientists of an international reputation, mainly considered the effect of surfaces, grain boundaries and structural defects on materials properties. From discussions during this meeting it emerged that correct understanding of properties of ceramic materials requires urgent studies on the defect structure of the interface region. Progress in this direction requires the development of the interface defect chemistry. This is the task for materials scientists in the near future. The present proceedings includes both theoretical and experimental work on general aspects of non-stoichiometry, defect structure and diffusion in relation to the bulk and to the interface region of such materials as high tech ceramics, solid electrolytes, electronic ceramics, nuclear materials and high Tc oxide superconductors.

From reader reviews:

Marie Clemmer:

Have you spare time for the day? What do you do when you have considerably more or little spare time? Yeah, you can choose the suitable activity regarding spend your time. Any person spent their own spare time to take a wander, shopping, or went to often the Mall. How about open or maybe read a book called Non-Stoichiometric Compounds: Surfaces, Grain Boundaries and Structural Defects (Nato Science Series C:)? Maybe it is being best activity for you. You already know beside you can spend your time with the favorite's book, you can wiser than before. Do you agree with their opinion or you have additional opinion?

Jeffrey David:

The knowledge that you get from Non-Stoichiometric Compounds: Surfaces, Grain Boundaries and Structural Defects (Nato Science Series C:) is the more deep you digging the information that hide into the words the more you get considering reading it. It doesn't mean that this book is hard to comprehend but Non-Stoichiometric Compounds: Surfaces, Grain Boundaries and Structural Defects (Nato Science Series C:) giving you thrill feeling of reading. The article author conveys their point in selected way that can be understood simply by anyone who read the idea because the author of this reserve is well-known enough. This specific book also makes your vocabulary increase well. So it is easy to understand then can go to you, both in printed or e-book style are available. We propose you for having this specific Non-Stoichiometric Compounds: Surfaces, Grain Boundaries and Structural Defects (Nato Science Series C:) instantly.

Janelle Ramirez:

The particular book Non-Stoichiometric Compounds: Surfaces, Grain Boundaries and Structural Defects (Nato Science Series C:) will bring you to definitely the new experience of reading the book. The author style to explain the idea is very unique. When you try to find new book to study, this book very suitable to you. The book Non-Stoichiometric Compounds: Surfaces, Grain Boundaries and Structural Defects (Nato Science Series C:) is much recommended to you you just read. You can also get the e-book in the official web site, so you can more readily to read the book.

Joshua Miner:

Beside this kind of Non-Stoichiometric Compounds: Surfaces, Grain Boundaries and Structural Defects (Nato Science Series C:) in your phone, it can give you a way to get nearer to the new knowledge or details. The information and the knowledge you can got here is fresh from your oven so don't end up being worry if you feel like an outdated people live in narrow town. It is good thing to have Non-Stoichiometric Compounds: Surfaces, Grain Boundaries and Structural Defects (Nato Science Series C:) because this book offers for your requirements readable information. Do you sometimes have book but you don't get what it's exactly about. Oh come on, that will not end up to happen if you have this inside your hand. The Enjoyable set up here cannot be questionable, just like treasuring beautiful island. Use you still want to miss the item?
