**Decision Analysis, Game Theory, and Information (University Casebook Series)** Louis Kaplow, Steven Shavell

Decision Analysis, Game Theory, and Information teaches the basics of decision analysis and game theory, the fundamental tools used over the past half-century by clients, whether businesses, government institutions, or other entities or individuals. Additionally, a brief introduction to basic concepts involving imperfect information concerning other parties are introduced. This handbook is designed for use as a supplementary text for a first-year course, and could also be used in connection with a course on legal methods or law and economics. This handbook comprises Chapters 1 and 2 of Analytical Methods for Lawyers, with appendix and revisions.
