The trader's guide to using the Ichimoku indicator on technical charting and market analysis. After years of studying the principles of market sentiment, investment expert and adjunct professor at Baruch College, Kiana Danial, gets to the bottom of this mysterious Japanese indicator, and combines it with Fibonacci retracement levels to develop trading strategies based on individual's risk tolerance; a method that has helped her and her Invest Diva students create profitable investing strategies. Whether you've already started trading, or you're itching to start, this is a recipe for making more profit, more often. What if you could develop winning strategies all by yourself? What if you were the first to spot a trend-change in the market? What if you were able to calculate the exact target levels and aim for them based on your portfolio and risk tolerance? This book will help you build your strategy development skills—fast. “Kiana has done a tremendous job of simplifying a powerful yet commonly misunderstood indicator. Intermediate to experienced traders will find this book of great value if they are looking to adjust their medium to long term strategies to fit specific risk tolerances.” – Ilan Azbel, CEO at AutoChartist “Kiana’s market analysis is always based on empirical, unbiased study and she adheres to the golden rule of trading: “follow the data”. If you want to increase your level of success in trading, follow Kiana!” – Jay Norris, Founder, Trading University KIANA DANIAL has been creating successful trading strategies since she was an electrical engineering student in Japan. After doubling her initial investment during the 2008 market crash, by trading the Japanese Yen against the US dollar with the help of a Japanese trader, she rapidly moved to New York to pursue a career on Wall Street. She then launched her investing education website, INVEST DIVA, and received an offer to publish her first investment book by McGraw-Hill. But the success-train was just getting started; once she started teaching her new formula to other traders, the results were simply breathtaking. Now the question is ... are YOU ready to learn the Ichimoku secrets and develop winning strategies?
